

JINO GUINANG

Bayawan City, Negros Oriental | +63 975 559 4702 | jinoguinang@gmail.com | jinoguinang.dev

PROFESSIONAL SUMMARY

Self-taught front-end developer with a foundation in HTML, CSS, and JavaScript, actively building practical projects and deepening skills through Frontend Masters and self-directed study. Highly analytical and detail-oriented — with a civil engineering background and experience in documentation, QA, and process management. Comfortable with AI-powered development tools, fast at picking up new technologies, and focused on writing clean, functional code that solves real problems.

TECHNICAL SKILLS

- Languages & Markup: HTML5, CSS3, JavaScript (ES6+)
- Tools & Workflow: Git, VS Code, browser DevTools, responsive design principles
- AI-Assisted Development: prompt engineering with LLMs (Claude, ChatGPT, DeepSeek), AI-assisted code generation and debugging, workflow automation
- Productivity & Collaboration: Google Workspace, Microsoft Office Suite, Notion, project documentation
- Currently learning: DOM manipulation, fetch API, CSS frameworks, and JavaScript fundamentals through Frontend Masters

PROJECTS

Personal Portfolio Website — *jinoguinang.dev*

2025 – Present

- Designed and built a personal portfolio site from scratch using HTML, CSS, and JavaScript — handling layout, responsiveness, and content independently.
- Applied core front-end principles including semantic markup, mobile-first design, and clean file structure.

AI-Powered Content Production System — *Self-Initiated*

2024 – Present

- Architected a complete short-form video production pipeline using DeepSeek, Imagen 4, and Seedance — covering scripting, image generation, motion direction, and SEO, entirely prompt-engineered.
- Built reusable prompt frameworks and automation workflows that reduced production time per video by over 60%.
- Demonstrated ability to design, test, and iterate on AI systems with minimal tooling — a core skill for modern web development workflows.

WORK EXPERIENCE

Customer Service Representative — *Straive*

May 2022 – Sept 2022

- Maintained strict QA documentation and record management, demonstrating strong attention to detail and process compliance.
- Identified recurring issues and relayed structured trend reports to team leads — transferable to bug reporting and QA in development contexts.

Customer Service Representative — *Inspiro*

Apr 2022 – May 2022

- Operated in a high-volume, fast-paced account environment with consistent adherence to quality and performance standards.

EDUCATION

Bachelor of Science in Civil Engineering (3rd Year) — *Negros Oriental State University (Unfinished)*

Relevant skills: analytical problem solving, structured documentation, data interpretation, and mathematics.

ADDITIONAL

- Self-directed learner with active coursework on Frontend Masters covering JavaScript, CSS, and modern web fundamentals
- Strong written and verbal English communication — capable of technical writing, documentation, and client-facing work
- Entrepreneurially driven: independently managing multiple digital ventures across content, brand, and product simultaneously

Portfolio & references available upon request.
